

BECOME A DOCTORAL STUDENT IN ARCHITECTURE AND URBAN PLANNING

University of Zagreb, Faculty of Architecture announces ***Call for Applicants for enrolment in the Postgraduate doctoral scientific study programme Architecture and Urban Planning***, for achieving the academic degree doctor of sciences in the field of technical sciences, scientific field architecture and urban planning in the academic year 2020/2021.

Doctoral scientific study lasts for ***six (6) semesters***.

During the study the doctoral candidate has to achieve at least ***180 ECTS points***.

Applications are open until Friday, September 11, 2020. For more information visit:
<http://www.arhitekt.hr/hr/nastava/poslijediplomski-studiji/doktorski-studij/>

Applicants who have ***completed (under)graduate university study of architecture in the Republic of Croatia or abroad***, and have achieved 300 ECTS points, or they attained the diploma in the (under)graduate study of architecture and urban planning in line with the earlier, pre-Bologna process. Applicants who have completed related university studies/programmes (civil engineering, geodesy, agronomy, art history etc.) can also apply, if their scientific-research interest is focused on architecture and urban planning, which can be corroborated by their past work and results.

Candidates who have achieved academic degree master of science (Mr. Sc.) in the field of technical sciences, can apply for enrolment in the fourth semester (mentoring).

The vision of the doctoral study is to promote the high level of research and critical addressing of the problems faced in contemporary challenges in design and planning. Using intense seminar methods, interactive workshops and encouraging mentoring, we try to articulate specific research areas as a contribution to the contemporary discourse in the area of architecture and urban planning. ***We encourage individual research based on understanding of complex influences within a wider area of built and unbuilt environment.*** We believe that the knowledge stemming from such research process represents the foundation for formation of our society in the future.
